Cookie policy

This website uses temporary session cookies and permanent cookies. Session cookies store data only while the user accesses the web, and permanent cookies store data in the terminal so that they are available in more than one session. Depending on the purpose of the data obtained through cookies, the website may use its own cookies:

Types of Cookies that we use according to its management

Own cookies: These are those that are sent to the user's terminal equipment from a computer or domain managed by the editor itself and from which the service requested by the user is provided.

Third-party cookies: These are those that are sent to the user's terminal equipment from a computer or domain that is not managed by the publisher, but by another entity that processes the data obtained through cookies.

Types of Cookies we use according to the time they are active

Session Cookies: They are a type of cookies designed to collect and store data while the user accesses a web page.

Persistent cookies: They are a type of cookie in which the data is still stored in the terminal and can be accessed and processed for a period defined by the person responsible for the cookie, and which can range from a few minutes to several years.

Types of Cookies we use according to purpose

Technical cookies: They allow the user to browse the website or application and use its different options or services. For example, they allow traffic and data communication to be controlled, session identification, access to restricted access areas, remembering the elements of an order, making a request for registration or participation in an event, using security elements or storing content. for broadcasting video or sound files.

Personalization cookies: They allow the user to access the service with some general characteristics predefined in their terminal or defined by the user. Among them are the language, the type of browser, the content design, the geolocation of the terminal or the regional configuration from which it is accessed.

Advertising cookies: They allow the effective management of the advertising spaces included in the web or application, adapting their content so that it is relevant to the user and to avoid the repetition of advertisements that they have already seen.

Statistical analysis cookies: They allow the monitoring and analysis of user behavior. The information collected is used to measure the activity of websites, applications or platforms, and to create user browsing profiles, in order to introduce improvements to the service based on the data collected.

Third-party cookies: They allow to manage and improve the services offered. Among other examples, there are the statistical services of Google Analytics.

The oceanus.life website may use third-party services that collect information for statistical purposes, use of the Site by the user and for the provision of other services related to the activity of the Website and other Internet services.

In particular, this website uses Google Analytics, a web analytics service provided by Google, Inc. domiciled in the United States with headquarters at 1600 Amphitheater Parkway, Mountain View, California 94043. To provide these services, they use cookies that collect information, including the user's IP address, which will be transmitted, processed and stored by Google in the terms set out on the Google.com website. Including the possible transmission of said information to third parties for reasons of legal requirement or when said third parties process the information on behalf of Google.
